

CLAIMS

1. A makeup device comprising a housing 10 provided with a marker face 15 and a plurality of makeup elements 11, 12, 13 permanently secured in said housing 10 and
5 projecting from said marker face 15, the housing acting as a handle, the device being characterized in that the marker ends of said makeup elements are coplanar.
2. A device according to claim 1, characterized in that
10 it includes a protective cap 17 that comes into contact with said marker face 15.
3. A device according to claim 1 or claim 2,
characterized in that said housing 10 is constituted by a
15 rigid synthetic foam.
4. A device according to claim 3, characterized in that said foam is ethylene vinyl acetate.
- 20 5. A device according to any preceding claim, characterized in that said housing 10 is asymmetrical.
6. A device according to any preceding claim,
characterized in that said makeup elements 11, 12, 13 are
25 juxtaposed in a plane.
7. A device according to any preceding claim,
characterized in that at least one of said makeup
elements 11, 12, 13 is a makeup pencil.
30
8. A device according to any one of claims 1 to 6,
characterized in that at least one of said makeup
elements 11, 12, 13 is an ink-impregnated wick.
- 35 9. A device according to any preceding claim, characterized in that said makeup elements 11, 12, 13 are

adhesively bonded in suitable orifices in said housing 10.

10. A device according to any one of claims 1 to 8,
5 characterized in that said housing 10 is injected around said makeup elements 11, 12, 13.

11. A device according to any one of claims 1 to 8,
characterized in that said makeup elements 11, 12, 13 are
10 made by being injected in orifices in said housing 10.
